1 GENERAL INFORMATION

1.1 Introduction

The Malta Development Bank (“the Bank”) was established on the 24 November 2017 when the Malta Development Bank Act, 2017 came into force (Act No XXI of 2017, CAP 574). It commenced operations on 11 December 2017 when the Board of Directors was appointed and held its first meeting. The MDB is fully owned by the Government of Malta.

The MDB’s strategic objective is to address market failures or financial gaps by offering financing facilities to support productive and viable operations where the market is unable or unwilling to accommodate such activities on its own in whole or part. The MDB complements commercial banks through a non-competitive and mutually supportive relationship, thereby ensuring additionality and diversifying Malta’s financial base in a cost-effective manner. The MDB’s primary goal is to contribute to public policy objectives, and it is therefore not driven by purely commercial and profit maximisation considerations. Nonetheless, the MDB supports only bankable investments and assesses proposals on the basis of sound banking principles, including feasibility.

In performing its promotional banking role, the MDB’s remit of activities covers a wide range of possible operations where there is evidence of market failure. In general terms, the MDB is engaged in private sector development; skills and technology, infrastructure development of regional or national importance, green economy, community services.

The Bank’s core programme has focused on a guarantee scheme for new SME investments. The Bank also supports large-scale infrastructural projects which experience difficulties in accessing the appropriate bank or other financing.

The Covid-19 pandemic created the need for the MDB to quickly become a key channel of Government’s crisis-response measures. Detailed information on the MDB’s Covid-19 Guarantee Schemes is provided in the Annual Reports which can be accessed from the bank’s website.
